

# T9 With Super Reflector Technology Indirect Fixtures

## TESTIMONIALS

“It looks as though the new lights are meeting their expectations (cost-wise). Our energy bill is down 36.8% from last year for the same period. That’s a savings of just over \$1,000 for the month. Having quality lighting for our members confirms that it was a good move!”

*Dean Snyder – Detroit Tennis & Squash, Farmington, MI*

“Gary Yurich and Best Lights delivered what they promised, and more. After researching multiple lighting options for our indoor tennis facility we decided to try the Best Lights indirect fixture with T9 lamps. The fixture and lamps have exceeded our original expectations of foot candles and have provided a uniform balance of light throughout our facility. End result — better lights and a 40% reduction in our electric use—ownership and membership couldn’t be happier!”

*Tom Pakulski – Westwood Racquet Club, Erie, PA*

“Everyone loves fact we have more light and we are saving 37% on our electric bill.”

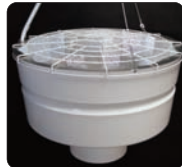

*Anthony Dececco – Tennis Addiction, Exton, PA*

## T9 Indirect Fixtures

### T9-210/315 or 630 Watt MH-XL-ISC Indirect (Cable) Mount

## SUPER REFLECTOR TECHNOLOGY

These indirect fixtures come with Patented Super Reflector Technology which reflects at least 20% more light than any other fixture. It is perfect for lighting all type of indoor sport facilities in conventional buildings or air structures with ceiling 15 to 100 feet high.

### Benefits

- ✓ The most energy efficient light.
- ✓ Replace 400 watt with T9 210 watts.
- ✓ Replace 1000 watt with T9 630 watts.
- ✓ Increases foot candles 10-30%
- ✓ Qualifies for Utility rebates.

**B**est Lights Super Reflector Technology equipped with Philips MasterColor Elite MW System offers an unrivalled level of light quality and performance. The lamp’s sparkling white light creates a natural ambiance and brings out the best in all different types of colors. Additionally the high efficiency of the lamp and ballast together means reduced energy use and a lower cost of ownership.

### Light quality

- 30,000 hr lamp life
- Silent dimmable electronic ballast
- Crisp, white light in 4200K
- Excellent color rendering of CRI 90+
- Stable color performance over entire life

### Philips “Green Flagship Product”

- Low mercury, no lead
- Up to 120 lm/w efficient electronic ballast that uses less energy
